

RVA50 BUILT TO DO BUSINESS BETTER

**ON-SITE TWO-WAY BUSINESS RADIOS
AND ACCESSORIES**

WORK TOGETHER BETTER WITH A FASTER WAY TO COMMUNICATE

You need to communicate quickly without missing a beat – whether you're coordinating resources or monitoring resources. The RVA50 two-way radios have the business smarts to help your teams work better together.

These fully-featured portables combine outstanding quality with excellent affordability to give your operation the competitive edge. With crisp, clear audio throughout the workplace and exceptional durability, the RVA50 radios won't quit in high noise, harsh conditions and hard use.

* Coverage will vary based on terrain, conditions and the radio model used.

** Does not apply to accessories.

*** CPS is available as a free download. Compatible with Windows® XP, Vista and 7. Separate USB cable required.

ALL THE RIGHT PROFESSIONAL CREDENTIALS

FEATURE:	FUNCTION:
EXCEPTIONALLY CLEAR AUDIO	Powerful speaker delivers premium-quality audio for clear communications in noisy conditions.
CONTINUOUS COVERAGE*	Communicate confidently in a workplace up to 250,000 sq. ft. or 20 floors (UHF).
ERGONOMIC DESIGN	Comfortable to wear all-day, with easy-to-use interface that requires little or no training.
DURABLE, WATER-RESISTANT	Takes on tough conditions with a durable metal diecast chassis that meets Military Standards and IP54/55 specs.
ANTIMICROBIAL PROTECTION**	Helps prevent the growth of mold and germs on the surface of the radio.
TRI-COLOR LED	Easily identify different radio features and radio status with the bright tri-color LED.
CHANNELS	To talk with different workgroups quickly, change channels with the channel selector knob (available on select models).
CHANNEL ALIAS	Assign each channel a user defined name and use channel announcement to confirm which channel you are on.
ADVANCED VOICE ACTIVATION (VOX)	Enjoy the convenience of hands-free operation with our optional accessories.
CONVENIENT CHARGING	Drop-in charger keeps radios charged, ready and centrally located. LED light on multi-unit charger provides a charge status to give you confidence you're heading out with a fully-charged radio.
EASY TO PROGRAM***	HTML-based Customer Programming Software works with any MS Windows computer web browser.
EASY CLONING	Quickly copy settings between RVA50 or EP150 radios with the radio-to-radio cloning cable or multi-unit charger accessories.
NARROWBAND COMPLIANT	Meets the FCC narrowbanding mandate to operate in 12.5 kHz efficiency. (Also 25 kHz)
BUSINESS-EXCLUSIVE FREQUENCIES	Operates on 450 to 470 MHz UHF or 150 to 161.05 MHz frequency range with 219 PL/DPL codes. Has national licensing capability.
SEAMLESS EP150 SERIES TRANSITION	RVA50 radios may work with all narrowband EP150 series radios.

IMPORTANT FEATURES HELP YOUR WORKFORCE

INTERACT EASILY

Customized channel announcements tell you which channel you're on when you change it. So you can concentrate on serving customers, not removing the radio from a belt to see the channel. Designate 16 pre-recorded channel names that fit your departments, or add your own when programming the radio, with a text to voice feature or by uploading your own audio clip.

The carry holster with a swivel clip lets you rotate the RVA50 radio into a comfortable position. Move freely as you bend to pick up a tool or reach to restock a shelf.

CONNECT CONVENIENTLY

Put the RVA50 radios in voice-activated (VOX) mode (with or without an audio accessory) and converse hands-free without physically pressing the push-to-talk (PTT). Now you can multi-task, check in a guest and call customer service to assist at the front desk.

An antimicrobial properties in the housing help prevent the growth of mold and germs on the surface of the radio. As workers change shifts, they can pass on portables confidently.

CHOOSE THE RIGHT RVA50 RADIO TO MEET YOUR BUSINESS NEEDS

TESTED TO LAST IN TOUGH CONDITIONS

Military Standard 810 C, D, E, F plus G and IP54/55 may be the standards for other radio manufacturers, but they are the starting point for our RVA50. These radios undergo Motorola's unique Accelerated Life Testing (ALT). This rigorous laboratory testing simulates up to 5 years of field use. We design and engineer the RVA50 right the first time to minimize costly repairs and downtime.

HIGH-POWERED ACCESSORIES WORK OVERTIME

AUDIO SOLUTIONS

Pair the RVA50 radio with an audio accessory to communicate productively. A variety of comfortable earpieces – from lightweight and unobtrusive to heavy-duty – help you hear clearest wherever it's loudest. Our innovative accessories fit your active workstyle and attire, too.

CARRY SOLUTIONS

Have the freedom to wear the RVA50 radio your way. A holster with swivel clip lets you move easily so you can wear the radio at the angle you prefer. Bend, reach or sit without the radio getting in the way.

CONNECTIVITY SOLUTIONS

Manage your radios and your time by cloning all programming and menu settings at the touch of a button with the radio-to-radio cloning cable or clone radios in your multi-unit charger. Use the CPS programming cable to quickly connect to software to program a variety of functions.

BATTERY AND CHARGING SOLUTIONS

Our rechargeable lithium ion batteries with battery life of up to 12 hours are lightweight and support long work days. A multi-unit charger with LED battery status light lets you charge up to six radios simultaneously. This charger is smart and speeds up charging times when there are less than 6 radios in it.
